### WORKSAMPLES

- Portfolio link, <https://satyajeet323.github.io/Portfolio/>
- Blog link, <https://satyajeet323.github.io/Portfolio/>

### PROJECTS

**Cafe Management :** The Café Management System is a desktop application built using Python and Tkinter to help café owners streamline and automate day-to-day operations. This user-friendly system provides an intuitive interface for managing orders, handling payments, and tracking inventory efficiently., <https://github.com/SATYAJEET323/Cafe-Managment.git>

**GYM - LOCATOR :** I led a web development team to create GYM-LOCATOR, an innovative project designed to help users find nearby gyms based on their location., <https://github.com/SATYAJEET323/GYM-LOCATOR>
